

KHULU RADEBE

It is not a matter of whether success is possible or not. Instead, it is essentially about the depth and quality of the impact we strive to have on humanity and the world we live in. Despite how small or inconsequential our personal and professional endeavours may seem to us, our mindfulness of the impact these have on society and the environment is what truly matters. In essence, umuntu ngumuntu ngabantu.

Experience & Skills

Khulu is a seasoned professional with over twenty years of experience in the field of management consulting with an additional ten years of senior and executive management experience. Khulu has worked in both the public and private sectors leading change, transformation and business turnaround interventions. His core skills lie in strategy and strategic facilitation, alignment and integration. He is an expert in institutional design and development and strategic human resources. Additionally, he has expertise in aligning and integrating digital transformation programs with business strategy and has led major digital transformations that have impacted over 500 000 users. Khulu can engage and collaborate across various organisational levels including senior executives, divisional heads, staff and organised labour with ease.
